

FARMERS' DAY

Sustainable Aquaculture Solutions

Part of DanAqua 2017, Aalborg, October 11TH

AALBORG CONGRESS & CULTURE CENTER, EUROPA PLADS 4, 9000 AALBORG

AquaCircle, the Danish Aquaculture Organisation and the Innovation Network for Environmental Technologies (Inno-MT) will host Farmers' Day on Wednesday 11th October. The theme is Recirculating Aquaculture Systems (RAS), which will be illustrated from different perspectives. Attendance is free of charge. All presentations will be held in English.

Farmers' Day at DanAqua 2017 is a unique opportunity for companies in the aquaculture business to acquire essential knowledge on innovative RAS technologies and discuss how to solve the challenges that exist in the industry today. Furthermore, Farmers' Day will be a chance to acquire information on new project opportunities in Norway.

PROGRAMME

13:00 – 15:00 Presentations of latest knowledge in the field of RAS and new innovative technologies by Danish and international speakers from the industry.

Breaks included.

15:00 – 16:00 Presentations of challenges in the Norwegian aquaculture industry.

16:00 – 17:00 Match-making with Norwegian seafood producers facilitated by Inno-MT and NCE Aquatech Cluster(Norway).

17:00 – Drinks, snacks and more networking.

PARTICIPANTS/CONTRIBUTORS

- 30-40 Danish RAS technology providers.
- Clusters and networks: NCE Aquatech Cluster(Norway), AquaCircle, Danish, Aquaculture Organisation, Inno-MT/CLEAN.
- Norwegian and Danish seafood producers.

REGISTRATION ASAP and latest September 27th [Here](#)

Or directly to Ulla Brandt at ubk@cleancluster.dk tlf. +45 2963 7137

Speakers and Norwegian producers participation in match-making event will be announced later. Participation in Farmers' Day is free of charge and does not require a ticket to DanAqua.
