# PRAKTISK ILTSTYRING MED CONVOY PACIFIC

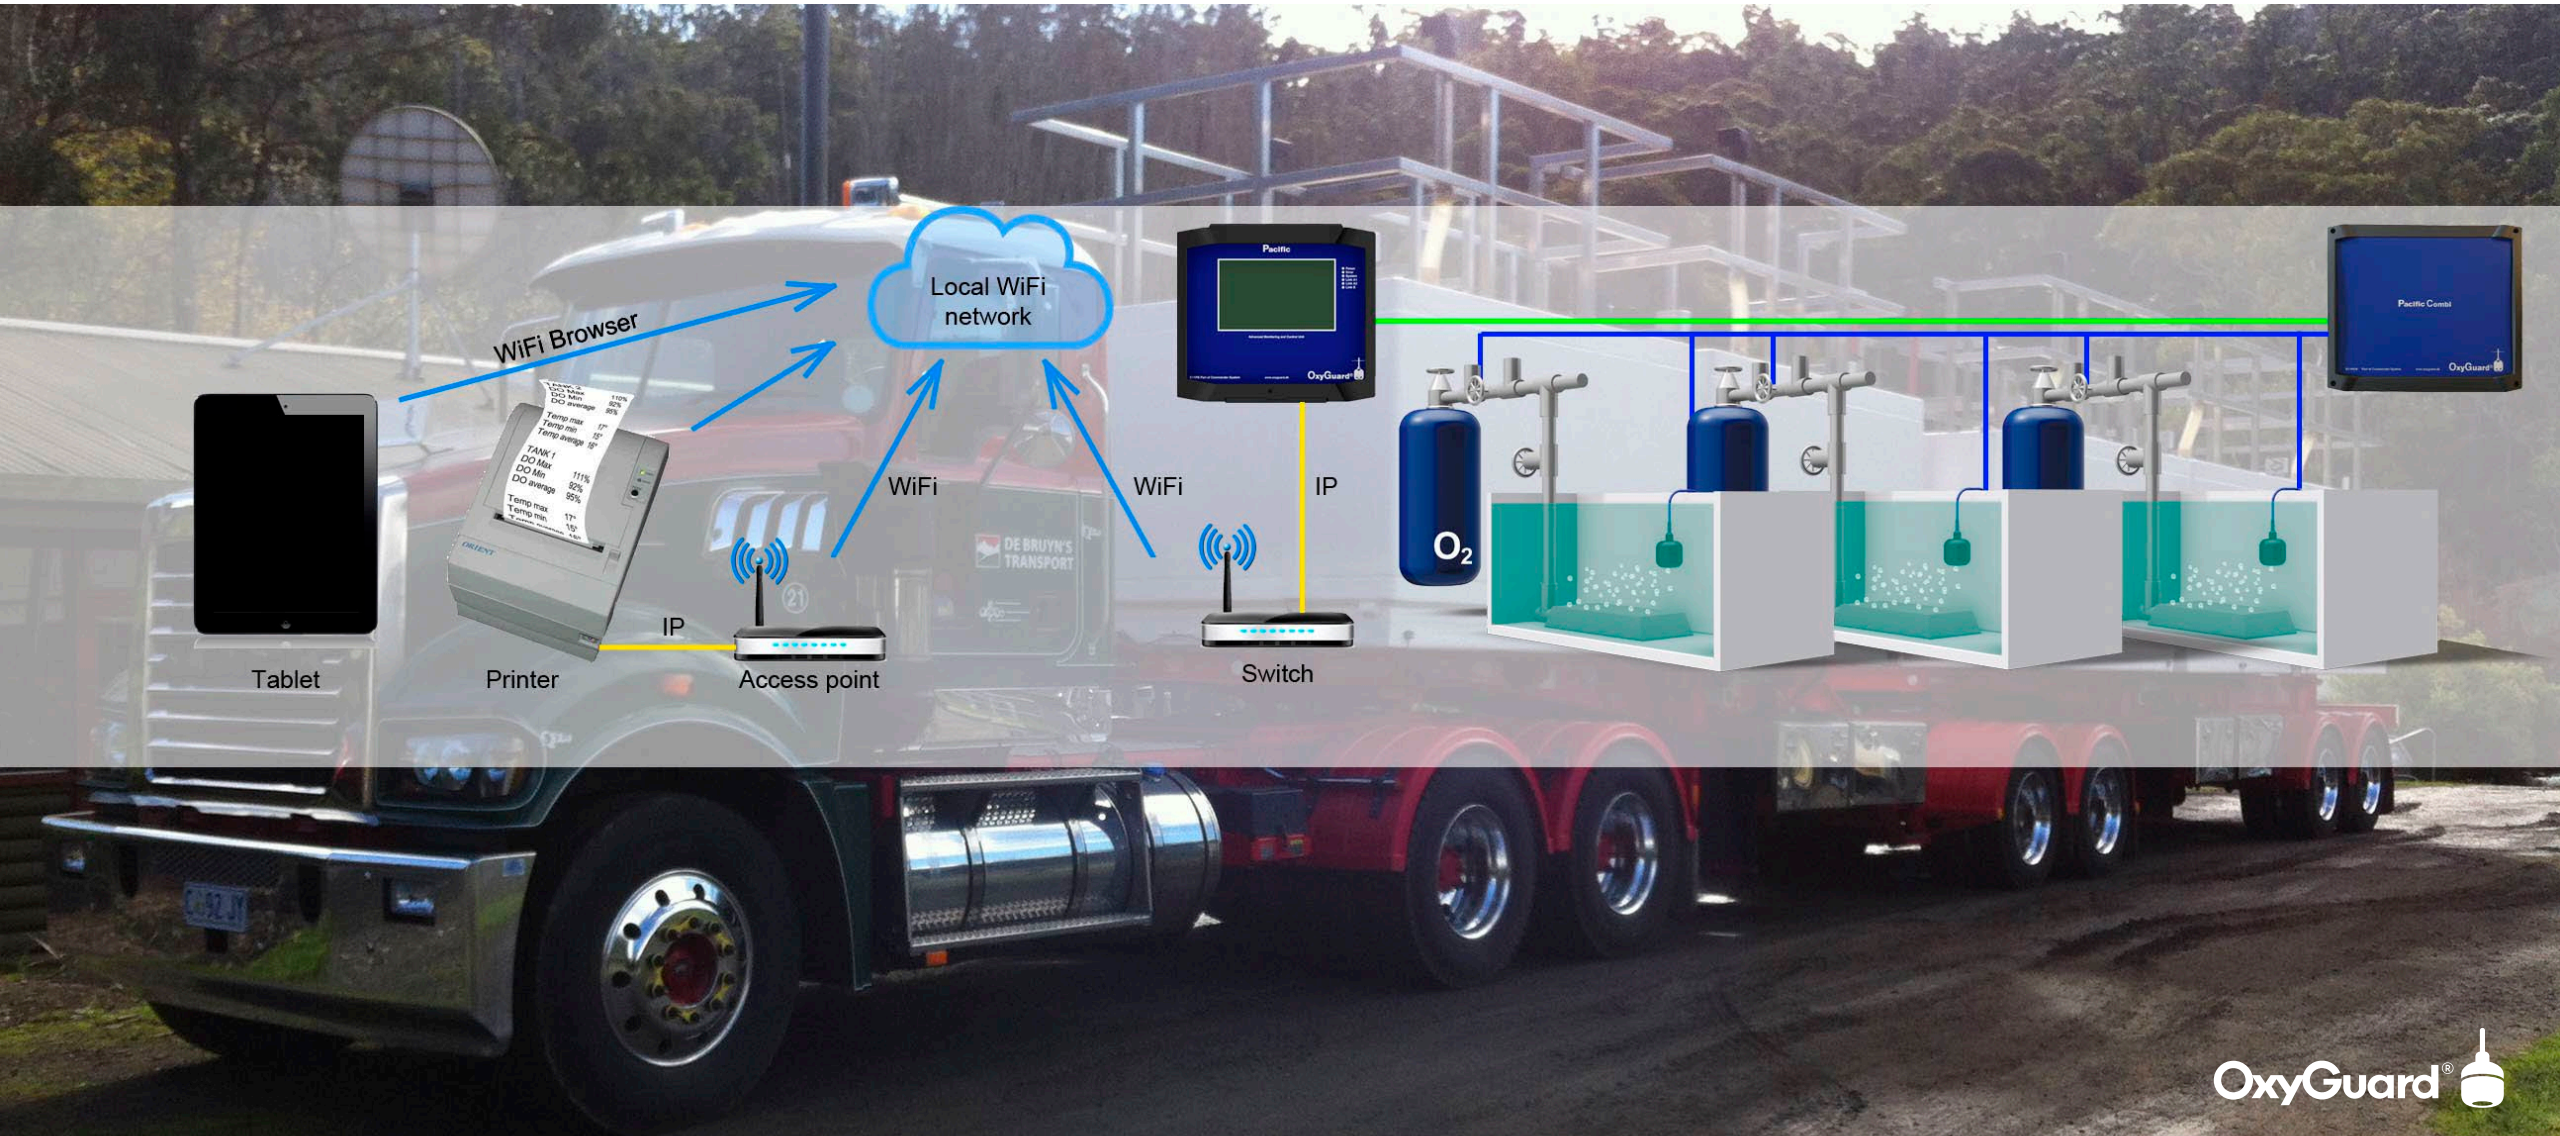

# KONCEPT

Pacific Convoy er et kontrol- og overvågningssystem, der bruges til at styre ilt under fiske transport.

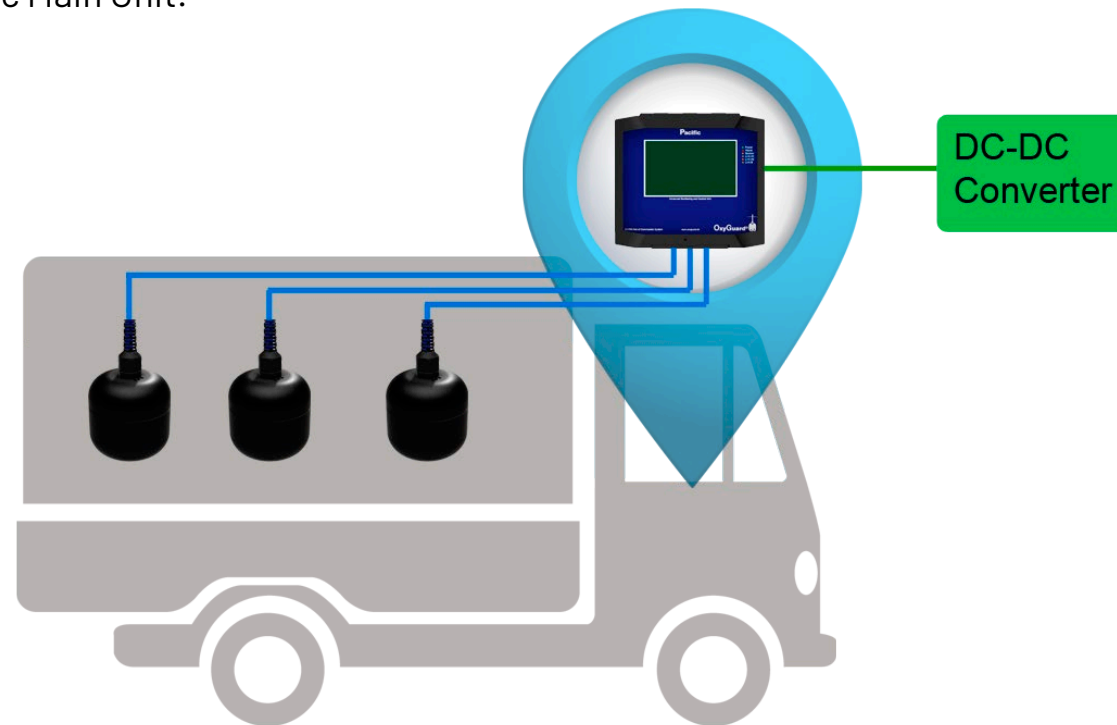

# SKRÆDDERSYET TIL DINE BEHOV

## EKSEMPEL 1

Overvågning | System bestående af ilt- og temperatursonder samt en Pacific Main Unit.

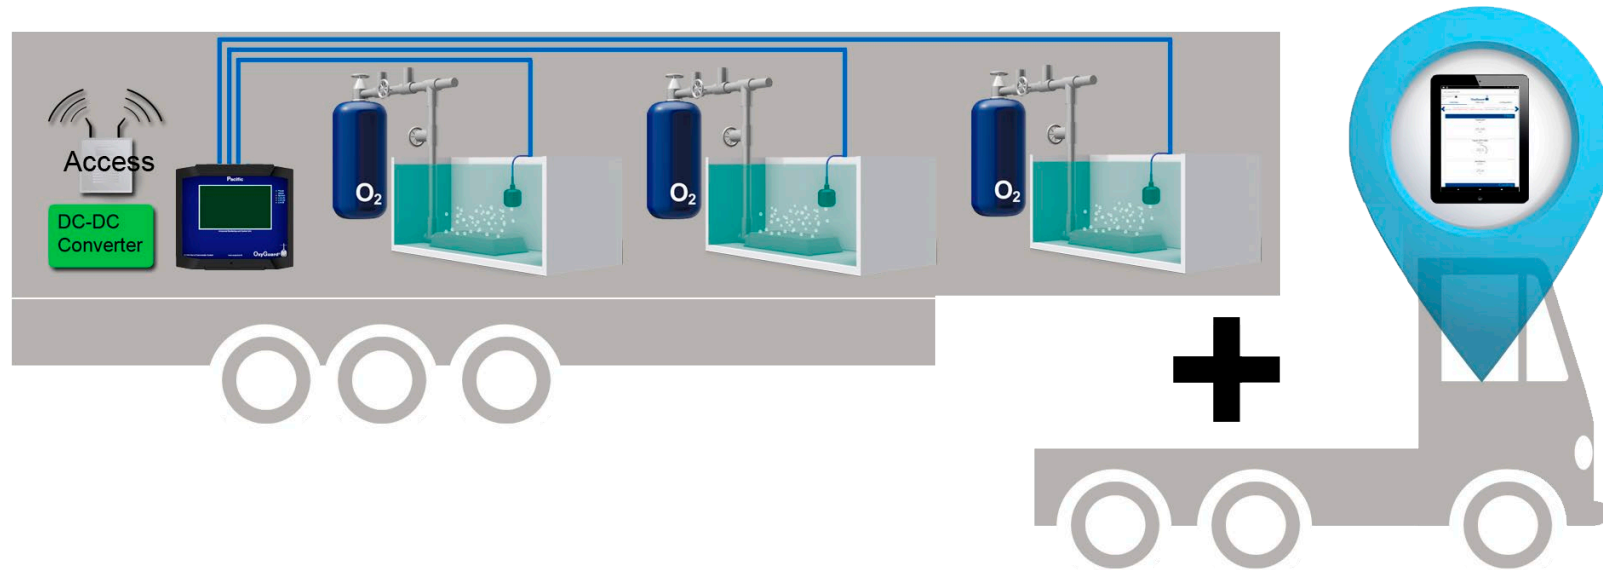

## EKSEMPEL 2

Overvågning og kontrol | System bestående af ilt- og temperatursonder samt en Pacific Main Unit.

Dette system uden ledninger har en stor fordel - installationen kan let fjernes.

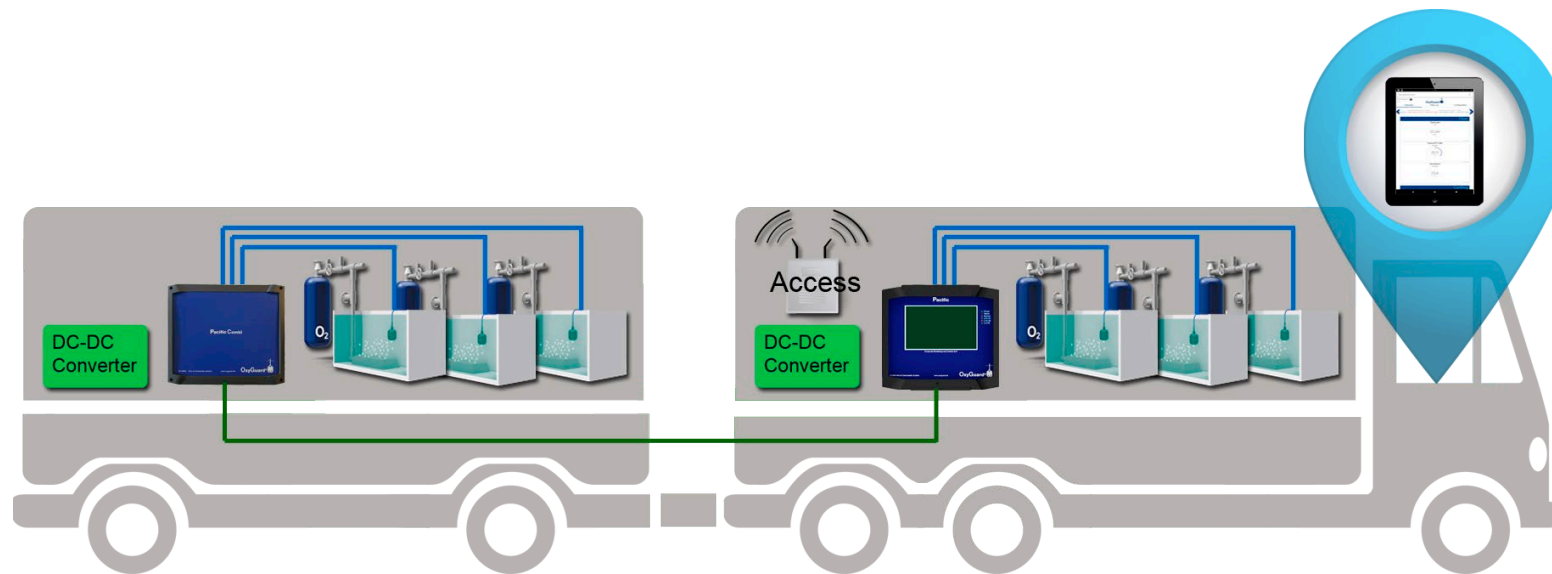

STOKOTA

*Levende fisk*

2553

## EKSEMPEL 3

To systemer i én | 2 systemer med overvågning og styring.

Rengøringsvenlig  
Glat indvendig  
Korrosionsbestandig

Tåler saltvand-  
og alle former for  
syre, også myresyre

Fødevarer godkendt  
Ingen afsmitning  
Væsketæt

Nem at tømme  
nem at tømme

C11PB Part of Commander System [www.oxyguard.dk](http://www.oxyguard.dk) **OxyGuard**

A complex hydraulic manifold system featuring multiple red hoses connected to various gauges and flow meters. The gauges have white faces with black and red markings. The flow meters are vertical glass tubes with red liquid inside. The system is mounted on a metal frame. A white rectangular component is visible in the foreground.

## MANUEL MÅLING AF ILT

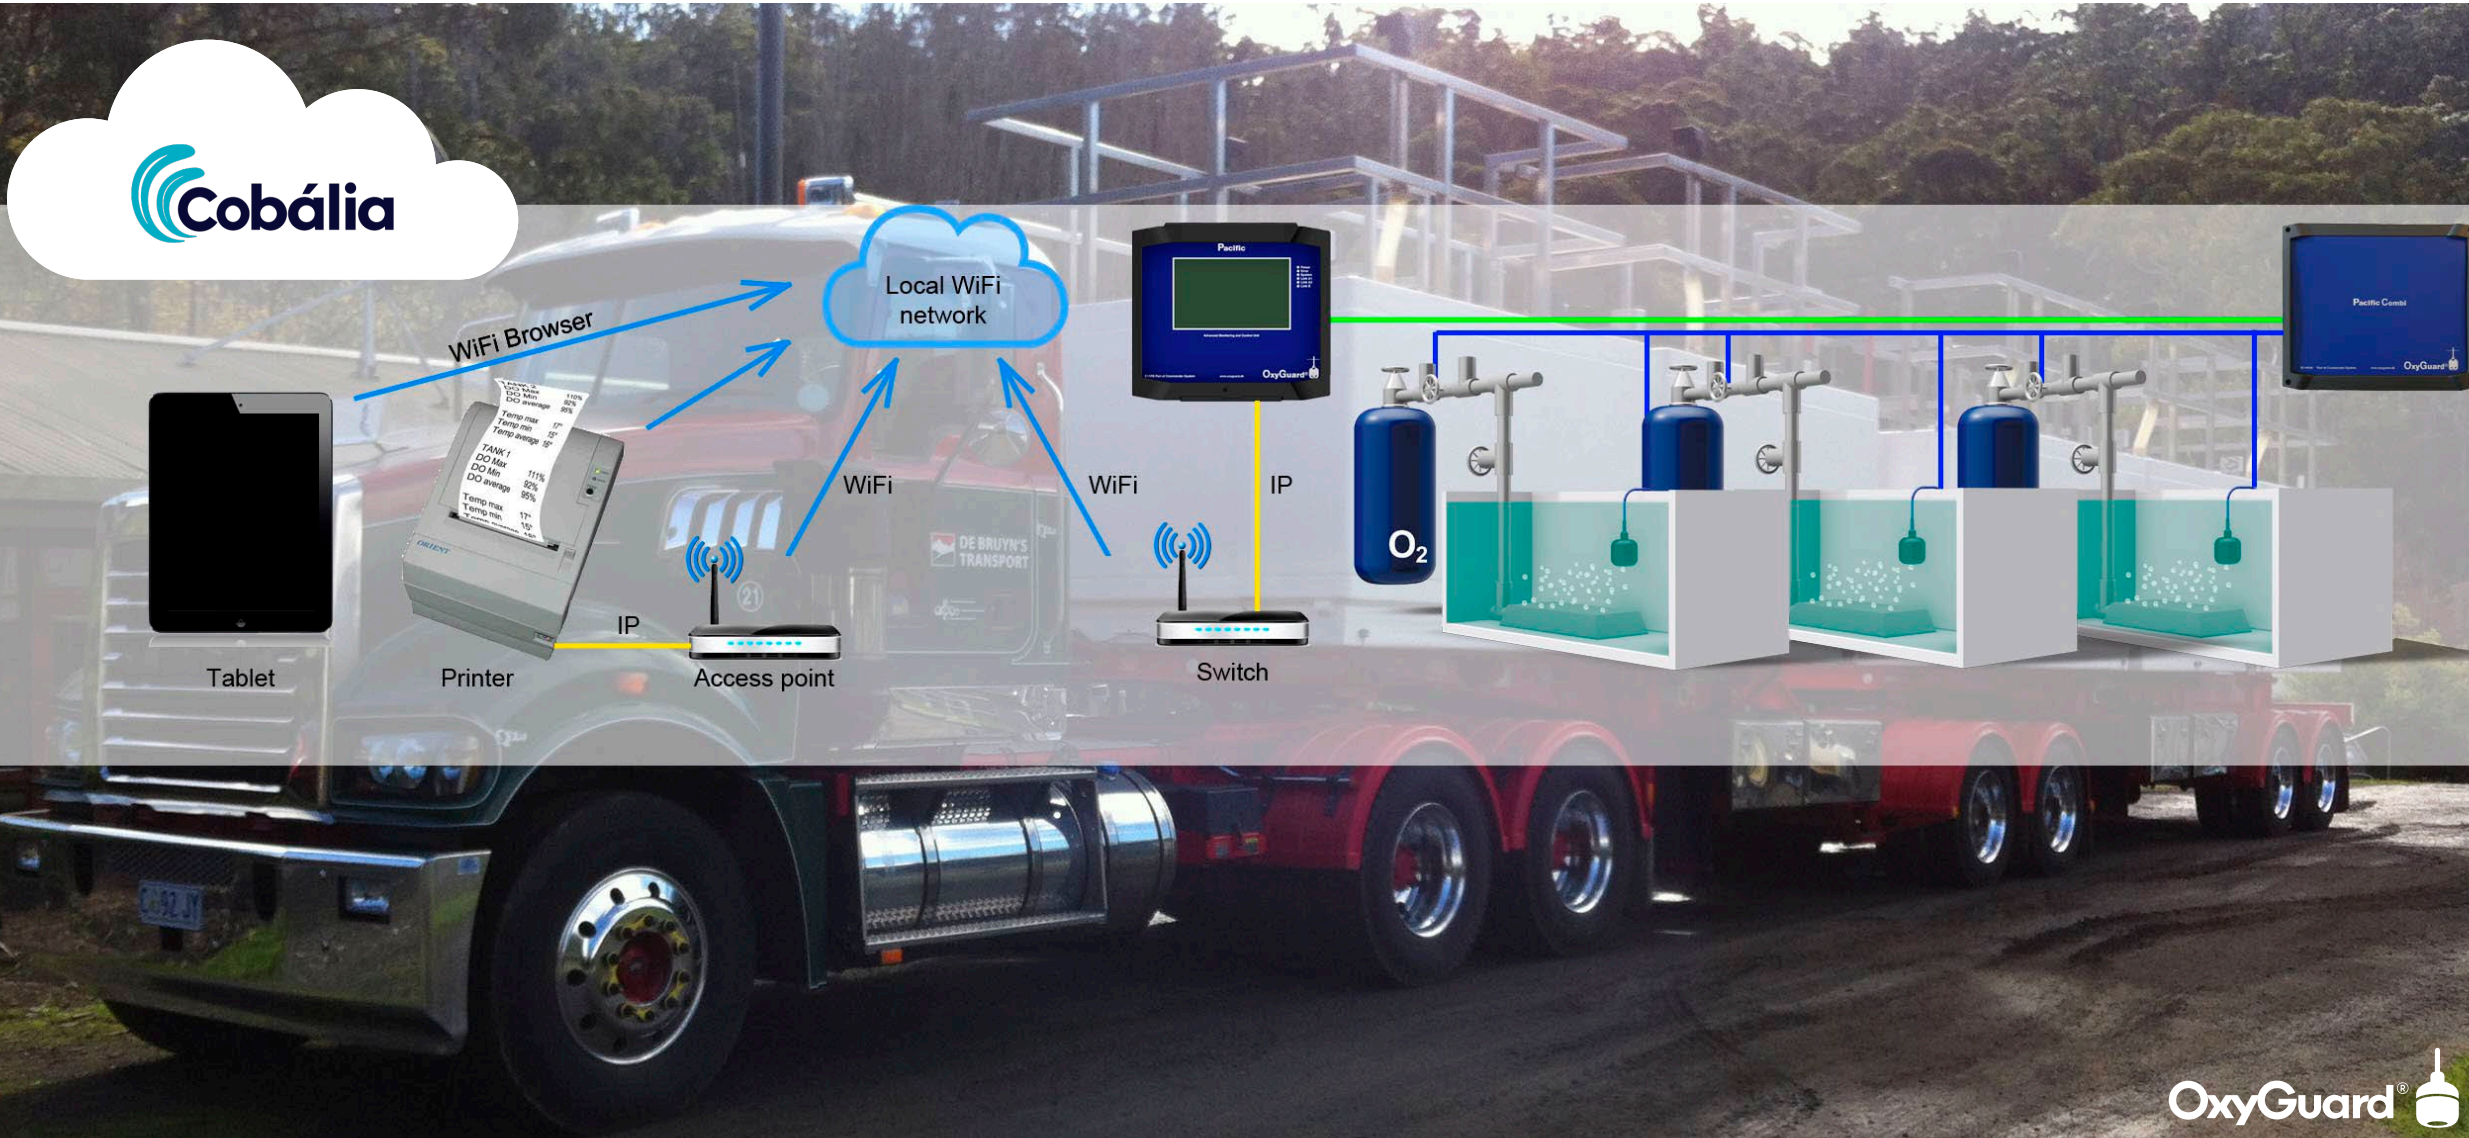

Håndholdt iltmåler Polaris C kan bruges til manuel måling af ilt i tankene.

# TIL LASTBILER OG BRONDBÅDE

Pacific Convoy bruges til både lastbiler og brøndbåde!
